It has now been two years since *Glossa* went live on 1 April 2016. The anniversary of the journal seemed like a good moment to look back. Since the transition from *Lingua* to *Glossa* in the Fall of 2015, the editors of *Glossa* have sent out roughly 3350 invitations to review. These invitations have resulted in 2220 completed reviews by a total of 1168 individual reviewers.

The editors of *Glossa* would like to take this opportunity to thank all reviewers since the Fall of 2015 for the effort and expertise that they have contributed. Without these reviews, it is simply impossible to maintain the high standards of peer-reviewed journals. We fully realize that reviewing is insufficiently rewarded in academia, and therefore decided to publish a complete list of our reviewers below. We apologize if your name does not appear in this list while you did review for *Glossa*: the transition period was quite hectic. Do let us know and we will rectify the list.

A heartfelt thank you to all of you!
